Dear Mr. Monrean:

Plans for the subject facility have been reviewed by this office for conformity with the State Fire Safety Regulations and are hereby approved as submitted. Enclosed is a certificate of approval that must be posted on the premises until completion of the above facility. You are prohibited to occupy this building until construction is completed as approved. Any changes to the approved plans must be submitted to this office for review and approval.

Note: The City of Craig requested that this facility be plan reviewed by our office because it is located on a lot that is zoned commercial. The review is for a private residence (R-3). If, in the future the use of the building changes from residential, a plan review would be required for the new use.

Approval of submitted plans is not approval of omissions or oversights by this office or noncompliance with any applicable regulations of the Municipal Government. The plans have not been reviewed for compliance with the federal Americans with Disabilities Act or structural requirements.

It must be understood that the inclusion of and compliance with State Fire Safety Regulations does not preclude the necessity of compliance with the requirements of local codes and ordinances.

If we can be of further assistance in this matter, please feel free to contact us at the address below.

Sincerely,

Robert Plumb
